

# BUWN-97

## DESCRIPTION

- ▶ With the presence of unnecessary noise pollution in our community, it has been proven that the white noise back-up alarms are more efficient by focusing the sound in the direction of the real danger and reducing unnecessary noise which gets lost in the surrounding areas.
- ▶ A felt paper has been added to protect the enclosure from dust and snow.

# ELECTRICAL SPECIFICATIONS

<b>Input voltage :</b>	12 to 24Vdc
<b>Sound :</b>	White Noise dB/M: 97+/-5dB
<b>Operating temperature:</b>	-20°C to 65°C (-4°F to 149°F)
<b>Current Draw:</b>	0.67A at 12Vdc / 0.48A at 24Vdc
<b>Dimension:</b>	102mm x 67mm
