

## ELECTRICAL SPECIFICATIONS

Voltage: 12Vdc to 24Vdc

Max. Current: 60A

8 Outputs Available: 2 Outputs 30A  
2 Outputs 20A  
2 Outputs 10A  
2 Outputs 5A

Operating Temperature: -40°C to 105°C (-40°F to 220°F)

## Number Description

67860Z CUSTOMIZABLE 8-SWITCH CONTROL WITH HIGH-POWER CIRCUIT

### Main Features Control Pad

- Weatherproof 8-switch control (IP65)
- Customizable RGB backlighting
- Automatic light intensity dimming (integrated sensor)
- Offers 3 configuration modes per switch:
  - On/Off (red light)
  - Momentary (blue light)
  - Pulse/Strobe Mode (green light)
- Possibility of grouping several switches

### Main Features Amplifier Box

- Supports 720 Watts on 12V/1,440 Watts on 24V
- 8 circuits available:
  - (2x) 30A / (2x) 20A / (2x) 10A / (2x) 5A
- Failure indicator on each circuit (Red LED)

### Main Features RF Remote Control

- Allows you to control the 8 outputs remotely by Radio Frequency
- Captures antenna signal 165 feet away
- Magnetic remote control case
- Battery included

For all types of vehicles including VTT and boats.
